Permit Limitations

PERMITTED ACTIVITY SHALL COMPLY WITH THE FOLLOWING:

1. There shall be no deviation from the plans and specifications submitted and hereby approved unless the proposed change shall first have been submitted to and approved by the City / County Engineer. An amended Cut & Fill Permit will be issued at that time.
2. This permit is issued from the standpoint of activity related to excavation, cut or fill of earth only and does not constitute certification of any other aspect of the proposed construction. The permittee is liable for any damage resulting from the permitted activity. This permit is issued under the provisions of Zoning Ordinance, Section 3-2(c)(5), if applicable. Issuance of this permit does not relieve the permittee from the responsibility of obtaining any other permits or licenses required by local, state or federal law.
3. A copy of this permit must be posted at the activity site.
4. During construction permittee must keep erosion control in place in accordance with KY Division of Water best management practices.
5. Property owner is responsible for all surface water drainage. All downspouts are to be directed to nearest stormwater facility or ditch.

Signature of Landowner and Applicant

We hereby request approval for excavation, cut or fill as described hereon and by the attached documents. To the best of our knowledge, all information provided is true and correct. By signing we understand the permit limitations as listed above.
